## MONEY MINDSETS

How and what you think about money has a significant impact on your financial future. Many times we unconsciously hold on to diserving beliefs about money and our ability to manage and be successful with our finances. Take the time to DIG DEEPER into your money mindsets so you can really go after the financial future you were destined to have.

What **disempowering belief** have you employed in managing your finances?

How have these beliefs impacted your financial success?

How is this belief ridiculous?
